*The future of rewarding holders who  
invest in tokenomics*

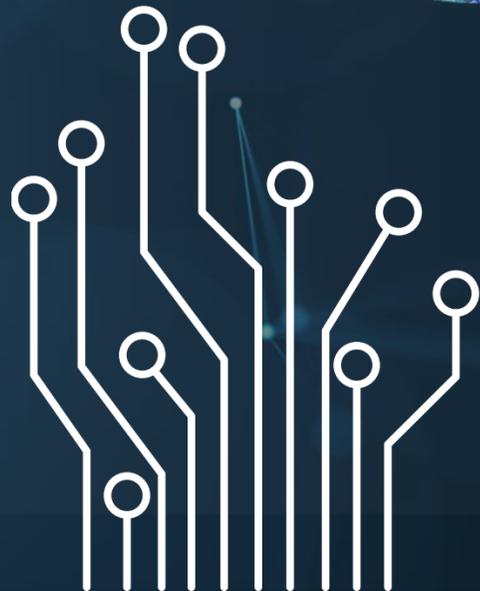

# The future of rewarding holders who invest in tokenomics

From the team that brought you Mega Bitcoin we are proud to bring you Mega Helium. We have every investor's contribution as the top priority for growth and stability, all powered by Helium miners. We have created a massive rewards system for our holders to love and enjoy the power of passive income just for holding MHC.

MEGA HELIUM

# Earn rewards through \$MHC token holding and Helium mining!

Presenting you with an automatic rewards system that will give holders 11% Mega Bitcoin (MBC) in total from their buy and sell transaction combined. (5.5%+5.5%). We want our investors to enjoy passive income by holding MHC and MBC. When you earn and hold one million MBC tokens, you are now eligible to earn BTCB rewards. If you would like to earn BTCB sooner, just visit [www.megabitcoin.net](http://www.megabitcoin.net) to learn how you can purchase MBC as well.

## Contract address:

### **Earn MBC Rewards In MHC:**

Earn passive rewards just for holding MHC! Rewards are paid out in MBC on your wallet if you have accumulated enough to cover the gas fees. You only need to add the MBC contract address as a custom token to your wallet. 5.5% of every buy and sell transaction for a total of 11% is distributed back to MHC holders.

MEGA HELIUM

### **11% Reflections + Helium Mining**

Helium is currently trading at \$26 per coin mined. Helium has an all time high of \$55.22. Which is why it is the perfect time to mine Helium while the price is low. We will convert a percentage of the Helium mined to MBC tokens and distribute these tokens to you the MHC holders. As an added benefit at 1 million MBC tokens, you will start to earn BTCB rewards.

# TOKENOMICS

Mega Helium joins Mega Bitcoin as part of an elite group of tokens that reward it's holders in 11% reflections. This is the first installation in our ecosystem that will include crypto credit cards, crypto personal and business loans and much more to come.

As Mega Helium mines we will be distributing 50% for rewards and 50% for our liquidity pool to buy back MHC tokens. This will not only give investors the best rewards, but also the best returns on their investment.

A 14% tax will be incurred on your buy and sell (plus any additional tax through exchanges). 5.5% will be distributed to the rewards wallet for distribution to the holders, 5% will go to the liquidity pool and 3.5% will go to the marketing wallet.

MEGA HELIUM

## 14% fees of each buy and sell transaction

The MHC token has a 14% buy and 14% sell fee on every transaction. A PancakeSwap fee of 3% is added to the 14%. This will bring the total fees charged to 17% on every buy and sell transaction you make through PancakeSwap. There is also a transfer fee of 14% from one wallet to another.

## 5.5% of each buy/sell transaction as rewards in MBC

5.5% of each buy transaction (of 14%) for rewards.  
5.5% of each sell transaction (of 14%) for rewards.  
= 11% of overall token rewards as reflections in MBC to the token holder.

## 5% of each buy/sell transaction for the liquidity to buy back MHC tokens

5% of each buy transaction (of 14%) for liquidity  
5% of each sell transaction (of 14%) for liquidity  
= 10% of overall token reflections for the liquidity.  
90% of that liquidity will be used for buying back tokens. These liquidity token buys will give MHC token holder extra rewards through buy transactions.  
10% of the liquidity will be used for buying new Helium miners.

## 3.5% of each buy/sell transaction for marketing

---

3.5% of each buy transaction (of 14%) for the marketing wallet.

3.5% of each sell transaction (of 14%) for the marketing wallet.

= 7% overall token rewards as reflections for the marketing wallet.

## 50% of Helium-Mining rewards for token holders (in development)

---

50% of the Helium-Mining rewards are for the token holders. If you hold more MHC, you are getting higher rewards. Rewards are sent automatically, once you have earned enough to cover the gas fees. The remaining 50% of the mined tokens will go to the liquidity pool to buy back MHC tokens.

# ROADMAP

Our team has every investment as top priority for growth and stability. We have created a massive reward system for our holders to love and enjoy the power of extended income for holding \$MBC.

## PHASE - 1

- Development of Mega Helium
- Smart Contract Creation
- 11% MBC rewards and Auto Liquidity Pool
- Launch Website
- Develop Social Media Community – Telegram, Twitter, Reddit, TikTok
- Create Pre-Sale on Pinksale Finance
- Lock 90% of Liquidity for 6 months
- Audit and KYC Badge
- Marketing and Advertising

## PHASE - 2

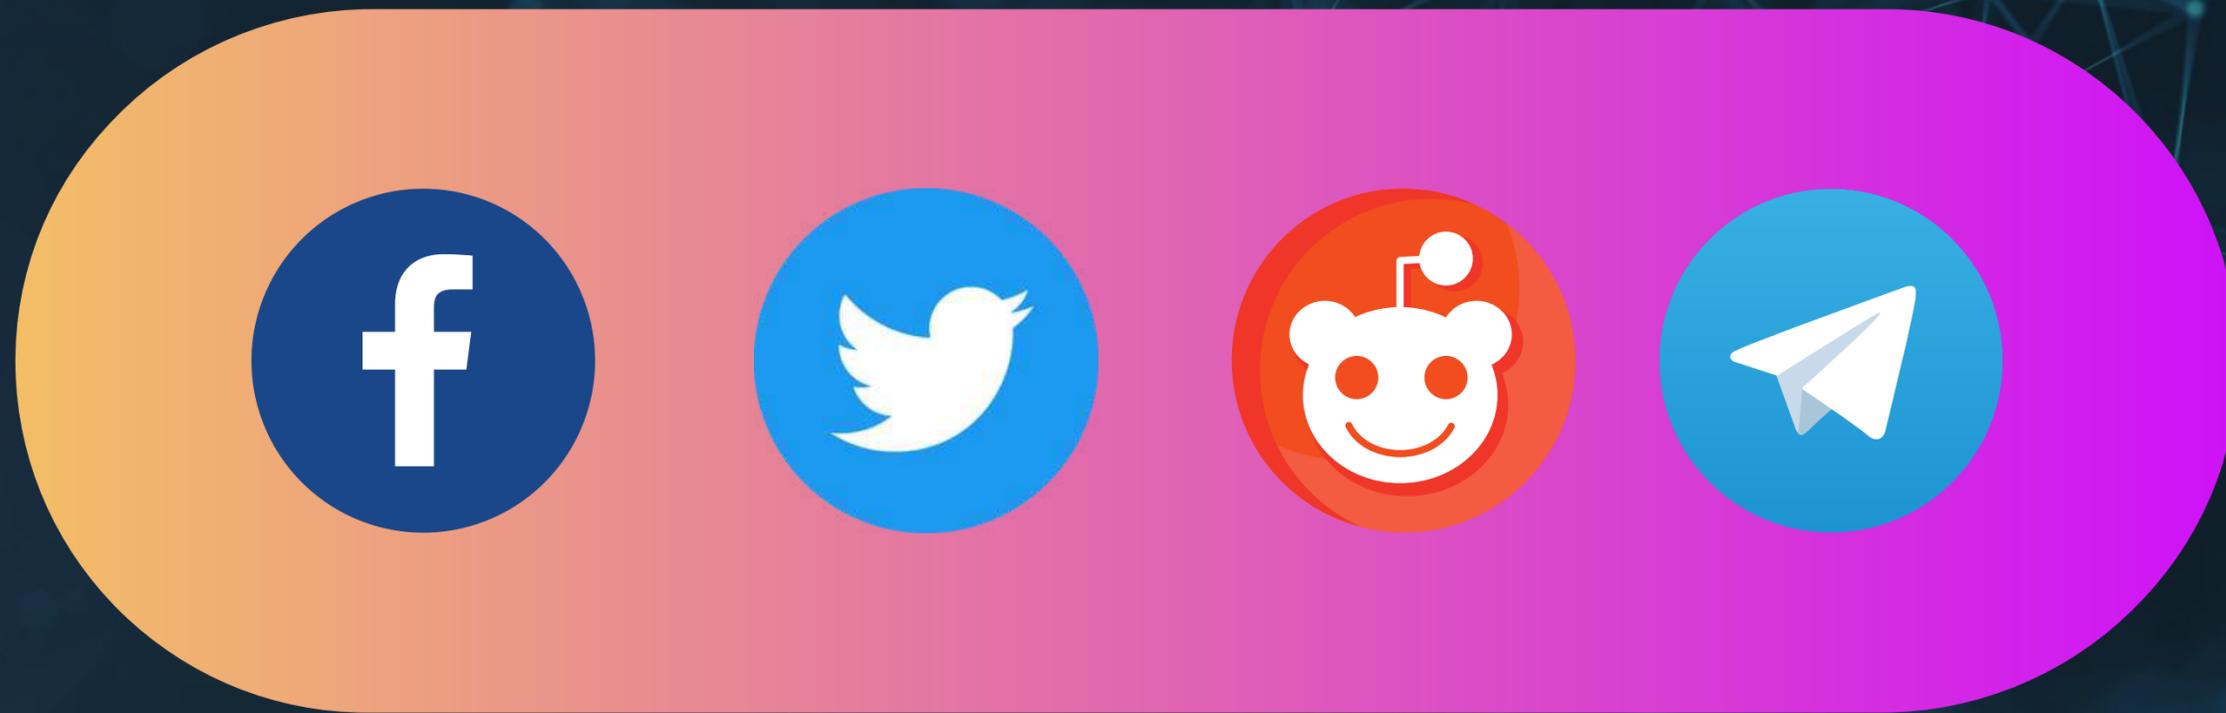

- 50,000 Holders
- Helium Miners to increase rewards for holders of MHC
- MHC drop every month to promotional winners
- Expansion of Mega Helium marketing team
- Incorporation of Network Marketing Program

## PHASE - 3

- 100,000 Holders
- Introducing Crypto Credit Cards, Personal and Business Loans
- Listings on more exchanges
